(Total no. of respondents 26)

Comments

Interactive sessions.

Good presenters.

Simple concepts.

Question 2:
Was aspects could be improved?

(Total no. of respondents 21)

Comments

Maybe to be given handouts of slides, especially as there is calculations/equations that are hard to follow on the board.

More discussion of real world examples.

The theory was very, very interesting but often repeated.

Question 3:	YES	NO	NEUTRAL
Was the theoretical component useful?	100%	0%	0%
(Total no. of respondents 27)			

Additional Comments

It consolidated what you learnt from the practical experience.

Although it was abstract it was very interesting.

Makes the experience 'make sense' in terms of understanding a pattern of behaviour.

Was the experimental component useful?	96%	0%	4%
(Total no. of respondents 27)			

Additional Comments

Very stimulating.

Very interesting and enlightening re: decision making

Most useful. More detailed explanation of the consequences of losing bids. i.e. when can you actually go into negative – affects bid significantly!

Question 5:	YES	NO	NEUTRAL
Was the policy component useful?	89%	0%	11%
(Total no. of respondents 27)			

Additional Comments

Yes, would have liked more.

Good to have the examples. I would like to have this section to be extended.

Great 3G examples.
